

The DARE E18 DR Bass cabinet is a direct relative of the hugely successful E18; although not horn loaded it is designed to be very indiscrete on installation and is only 36cm deep. Since its introduction it has been used alongside many speakers, its high power rating (600 watts) and its compact size make it one of the highest powered 18 inch speakers currently available.

The driver integrates an aluminium heat sink that dissipates heat at high temperatures, and minimises power compression, with a rigid Kevlar re-enforced cone material, a double spider system and a huge magnet motor, and the end result is an ultra powerful, dynamic and reliable speaker.

The cabinet is manufactured from exterior grade MDF; generally this material is regarded as acoustically ideal. Providing an accurate balance between denseness and flexibility, the cabinet is finished in an Eco friendly water based paint, that is both hard wearing and durable under touring situations, and is used by many of the leading concert box's.

Installation is simple and the cabinet can be placed on either plane.

<b>ENCLOSURE TYPE</b>	Bass reflex –
<b>DRIVER COMPLIMENT</b>	Single 600 watt 18" driver To be used in conjunction with Dare SC3 Eclipse System Controller or equivalent.
<b>DISPERSION</b>	Omni
<b>FREQUENCY RESPONSE</b>	40 Hz to 2000 kHz – minus 10dB
<b>POWER HANDLING</b>	600 Watts (with SC3 or 4)
<b>SENSITIVITY</b>	98 dB
<b>MAXIMUM SPL</b>	127 dB (peak)
<b>NOMINAL IMPEDANCE</b>	8 ohms
