

The DARE DRX700 Bass cabinet was originally designed to compliment the Award winning Eclipse loudspeaker pod, but since it has been used alongside many speakers, its high power rating (700 watts) and its compact size make it one of the highest powered direct radiating 15" ported loudspeakers currently available.

The driver integrates a unique flux focusing vented pole piece, that dissipates heat at high temperatures, minimises power compression, and focuses the stray flux, increasing efficiency - with a rigid Kevlar re-enforced cone material, a double spider system and a huge magnet motor, the end result is an ultra powerful, dynamic and reliable speaker.

The compact ported loudspeaker cabinet, was pioneered by the engineers at DARE Pro-Audio, and increases the overall efficiency and as you can see from the Graph - creates a tight controlled response curve.

The cabinet is manufactured from exterior grade MDF; generally this material is regarded as acoustically ideal. Providing an accurate balance between denseness and flexibility, the cabinet is finished in an Eco friendly water based paint, that is both hard wearing and durable under touring situations, and is used by many of the leading concert box's.

Installation is simple and the cabinet can be placed on either plane.

DARE DRX 700 Watt Bass speaker

ENCLOSURE TYPE	Compact Ported Bass speaker.
CROSSOVER & CONTROL	700 watt 15" driver Single driver.
DISPERSION	To be used in conjunction with Dare SC3 Eclipse System Controller or equivalent.
FREQUENCY RESPONSE	Omni
POWER HANDLING	40 Hz to 800 kHz – minus 10dB
SENSITIVITY	700 Watts (with SC3 or 4)
MAXIMUM SPL	99.11 dB
NOMINAL IMPEDANCE	128 dB (peak)
RIGGING & FIXING	8 ohms
INPUT CONNECTORS	to special order
CUSTOM FINISH	2-x NL4C Speakon Wired +1 –1
DIMENSIONS	Available in any BS, RAL or Pantone® colour
	Height: 690mm
	Width: 460mm
	Depth: 410mm
WEIGHT	32 kg
SHIPPING WIGHT (BULKED)	56 kg
SHIPPING DIMENSIONS	840 X 570 X 700 mm Carton = 1 x per box

DRX700

Features

- Very compact high power cabinet
- Wide and even dispersion.
- Wide/controlled dispersion.
- 600 Watt Power Handling.
- 98db Sensitivity.
- Strong perforated steel grille.
- Strong DARE Road paint finish
- Simple Installation and maintenance
- Five-Year Warranty

Applications

- Main systems in theatres and Discotheques
- Hi-Fi Quality Foreground Music
- Aerobics and Sports Halls
- Foreground Music in Retail
- Theme Bars and Restaurants
- In-fill systems in theatres and Discotheques.
- AV Presentation
- High Power studio monitoring
- Live Music presentations
- Dance floor Systems
